

BATTERY GUARDIAN

ICS1.5LF

6V / 12V 1.5A LiFePO4 Charger

The *enecharger ICS1.5LF* is a compact easy-to-use charger & maintainer designed for Lithium Iron Phosphate (LiFePO4) batteries.

The *ICS1.5LF* with simple Plug & Play functionality, includes Spade and Ring type terminations for charging mounted or stand alone batteries. Simply connect to the battery and let the *ICS1.5LF's* auto voltage detect and auto charging algorithms charge and maintain the battery, ensuring your motorbike, cruiser, ATV or PWC is ready for your next adventure.

- **Fully automatic** with 6-Step LFP charging program to optimise battery service life with **LED indication** of charging status.
- **Auto Voltage Detection** - no manual switching required.
- **For Lithium Iron Phosphate (LiFePO4) batteries:**
Charge: 1.5Ah to 30Ah
Maintain: up to 60Ah
- **Built in protection** against reverse polarity and spark proof.
- **2 years warranty.**

Ring terminals to Constar/SAE (BFL2) included.

Spade terminals to Constar/SAE (BFL6) included.

ICS1.5LF suitable for:

-  Motorbikes & cruisers
-  ATV quad bikes
-  Jet skis and PWCs
