

BF BATTERY FIGHTER

Battery Fighter Mini

12V 1.0A automatic switchmode lead acid battery charger and maintainer is ideal for use with 12V motorcycle and small vehicle batteries.

Small, compact and lightweight, the Battery Fighter Mini uses modern and convenient charge and maintenance technology. Designed to minimise down time and extend the service life of your 12V lead acid, VRLA, Gel and AGM batteries, the Battery Fighter Mini ensures that batteries perform better and are ready when you need them.

Various inputs and terminations available:

Alligator Clips

Model: BSE1210-INT-A

Cigarette Plug

Model: BSE1210-INT-C

Spade Terminals

Model: BSE1210-INT-S

Specifications:

- 2 Step Charging - CC, CV
- Charges 12V lead acid 3.4Ah - 20Ah
- AC input: 100-240VAC 50/60Hz 20W
- DC output: 12VDC @ 1.0Amp
- Automatic shut off @ 14.4V
- Reverse polarity protection
- Spark proof
- LED status indicator

Model Number:

BSE1210-INT-A: with alligator clips

BSE1210-INT-C: with cigarette plug

BSE1210-INT-S: with spade terminals

Interchangeable Input Plugs

All models include Australian plug. Other plugs are optional and sold separately.
