

## UPGRADED FUJITSU ALKALINE BATTERIES

Fujitsu continues to bring innovative Japanese technology to the portable power industry with the release of all new and upgraded Alkaline batteries now at MI - official partner and distributor.

### UNIVERSAL POWER RANGE

- Best value for everyday use devices.
- Anti-leakage protection for up to 7 years in storage.
- Available in sizes: N, AAA, AA, C, D, 9V (Blister & shrink).

### HIGH POWER RANGE

- High performance more suitable for high drain devices.
- Anti-leakage protection for up to 10 years in storage.
- Available in sizes: AAA, AA, C, D (Blister packs only).

### PREMIUM POWER RANGE

- Maximum runtime for all low to high drain devices.
- Anti-leakage protection for up to 10 years guaranteed.
- Always ready to use - retains 95% capacity for up to 10 years.
- Available in sizes: AAA, AA - BULK VALUE PACKS.

LR03(36M)FP  
Premium Power Series  
1.5V AAA Alkaline  
Value Pack - Box of 36

LR6(48M)FP  
Premium Power Series  
1.5V AA Alkaline  
Value Pack - Box of 48

## ENECHARGER QUICK CHARGE 2.0 - 60% CHARGE IN 30 MINUTES!\*

**Qualcomm**<sup>®</sup>  
Quick Charge<sup>™</sup> 2.0

The latest smartphones and mobile devices are powered by batteries with increasingly higher capacities so conventional chargers no longer charge the device fast enough to suit a busy lifestyle.

Enter Enecharger with built in innovative Quick Charge (QC2.0) technology in the latest range of AC & DC charge adaptors means you can fast charge QC2.0 enabled devices from empty to 60% capacity in as little as 30 minutes.

Quick Charge chargers and power products are backwards compatible and safe to use with older and non-QC2.0 enabled devices, while still providing a higher charge current than conventional chargers.

**So, you could charge your Samsung Galaxy Note 4 up to 60% capacity in under 30 minutes, or your iPhone 6/6S/Plus up to 2.4 times faster than with conventional chargers!**

Enecharger Quick Charge products are suitable for the whole family and there's a range of products to suit most needs.

\*for compatible devices.

### FOR THE CAR

**QC2-DC1**  
USB 12/24V DC input 2.4A QC2.0 USB output. Quickly charge your device in the car before you get to a hectic day at work!

### FOR THE HOME

**QC2-AC1**  
3.0A 5V AC-DC regulated switchmode power supply QC2.0 USB output. Your phone will be ready to go by the time you're done getting ready for a night on the town!

### FOR A BOOST

**UEB-10**  
5V dual USB 38W 8000mAh Lilon power bank. 1xQC2.0 plus 1x2.4A. A portable power source in your bag whenever your phone or tablet needs a boost!

### FOR THE FAMILY

**QC2-ACDC4**  
3.0A 5V AC-DC regulated switchmode power supply with 4 USB outputs: 2 x QC2.0 plus 2 x high current. Charge the family's devices whether at home or away for the holidays!

## EBIKE BATTERIES, PARTS & CHARGERS

Originating from our Mondia eBike range, MI stocks high capacity batteries, mounts, instrumentation and chargers that can be adapted for use with almost any application. The securable 324Wh and 418Wh smart batteries feature premium Panasonic cells inside, providing your very own "Portable Power on Tap" when mounted to your application using our KS462B battery mount. Charge and maintain the batteries using our range of chargers and instrumentation.

### Mountable Lithium Ion Battery Packs

36V 9.0Ah  
Lilon Panasonic cells inside, built in protection. LED power indicators.

KL36HS91B.082CH

36V 11.6Ah  
Lilon Panasonic cells inside, built in protection. LED power indicators.

KL36HS91B.809PF

### LCD Display Instrument Panel

View voltage, remaining battery capacity, number of cycles and more with this mountable LCD panel.

BMS2002

### Battery Mount

Movable battery mount for eBike Lilon battery packs and other 36V eBike retrofits.

KS462B

### High Power Lilon Battery Chargers

100-240VAC input lithium ion battery chargers in a range of outputs and terminations to suit high power Lilon batteries. Check our website for details.

## CONSUMER WATCH BATTERIES

Ansmann's silver oxide range is the premium quality battery for watches and small electrical devices like calculators.

Available in 11 sizes, the Ansmann silver oxide range features resistance to extreme working temperatures (-20°C to +60°C) and a storage capability up to 3 years.

See Products by Brand > Ansmann > Silver Oxide

## ANSMANN UNIVERSAL POWER SUPPLY

Ansmann's new APS1000 Traveller is a universal 3-12VDC selectable voltage power supply with 7 DC output plugs for use with a range of small electrical devices whether at home or on the go.

The versatile APS1000 Traveller includes interchangeable mains input plugs for Australia, USA, Europe and UK for worldwide use.

**Quick Specs:**  
Input: 100-240VAC  
Output: 3-12VDC  
1.0A 12W.

Check voltage acceptance of device before use.

Model: APS1000

## NEW LED LIGHT FOR WORK OR PLAY

New from Ansmann is the feature packed WL-250R LED work light with spotlight, magnetic back and base for complete handsfree use PLUS direct plug-in recharge capability.

1. 2 rotatable hooks.
2. LED spotlight.
3. Direct plug-in charge.
4. Magnetic back.
5. Magnetic base.
6. 8 step foldable handle to become a stand or aim the light in a certain direction.

Includes 100-240VAC and 12VDC adaptors.

Model: 1600-0070

## ULTRA COMPACT LED FLASHLIGHT

XTAR's latest offering in its EDC range of quality torches and flashlights is the WK41.

**300 LUMENS  
IN THE PALM  
OF YOUR HAND!**

Model: WK41  
**RRP: \$49.95**

Four light settings\* plus three hidden modes accessed via side switch.

Compatible with AA alkaline/NiMH or 14500 Lilon batteries.

Fujitsu High Power alkaline battery is included.

\*Turbo setting only usable when Lilon battery is inserted.
